Open Google Learn

Go to Google Slides

Create the following:

1 slide with title of Species or Breed (add pictures)

2 slide state its height and weight (if you can give examples of everyday things that weigh that much or are that long—ex: 1 sugar cube and a ruler with an arrow showing length—Pictures are a good idea)

3 slide state how many newborns and type of newborns it has (find a picture if you can)

4 slide state a fun fact (find a picture if you can)

5 slide state it's body temperature and tell me what that means in your slide

Share it with me.

Be as creative as you want and have fun...find a book about your type of animal and add the title; try to find a sound clip, \*\*if you Google images make sure they are from the Creative Commons or site your source, !! Do the same for sound clips.

Here's an example to get you started: DO NOT USE MINE AS A TEMPLATE...MAKE YOU'RE YOUR OWN
